

DXC Project Industries Solutions

Full control of processes – from first customer contact to final delivery

Project-oriented manufacturing businesses face daily challenges related to quality and compliance expectations, competitive pricing and demanding delivery schedules. With tight control of your information, project cycles and processes, you can optimize each delivery to increase customer satisfaction and promote more profitable, repeat business.

Extends standard Dynamics capabilities with, e.g.:

- Project budgeting with integration to forecast and revenue recognition
- Advanced project invoicing with invoice control
- Multi-structure WBS/CBS for use in RFQs and transfer to quotation, projects, forecast and procurement
- Project procurement plan for project logistics and manufacturing
- Project workspaces and embedded BI for project overview and controls

Tried and tested across Scandinavia

- 30+ years of industry experience
- More than 3,500 daily users
- In project manufacturing, project-based construction and project-based services

Microsoft solution compatibility:

- Microsoft Dynamics 365 for Finance and Operations (now Dynamics 365 Finance and Dynamics 365 Supply Chain)
- Microsoft Dynamics AX 2012 R3

DXC Project Industries Solutions add unique capabilities to simplify work processes and enable a competitive advantage with:

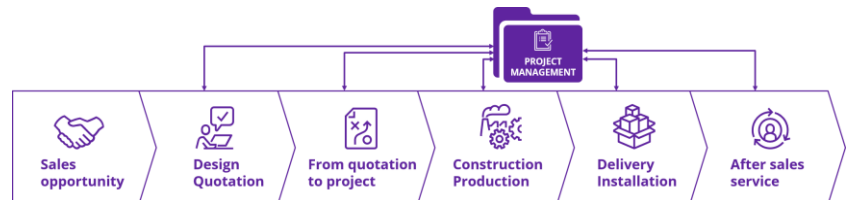

- **A more efficient value chain** – that enables leaner processes and more profitable projects
- **On-time, quality projects** – that meet compliance goals and customer expectations
- **Dynamic, data-driven decision-making** – based on real-time information and insight from across the business
- **A standardized solution** – that meets over 90% of customer needs.

Essential project industry capabilities across your value-chain

Optimize your entire end-to-end process from sales and quotation through engineering, production and final delivery, to ongoing customer service – supported by strong project management capabilities, collaboration and reporting that help fill your order book, maximize your cash-flow and boost your bottom line.
