

Carbon Reduction Plan

Supplier name: GBC5 ES Info Sec UK Ltd

Publication date: 30.11.22

Commitment to achieving Net Zero

GBC5 ES Info Sec UK Ltd is committed to achieving Net Zero emissions by 2050 in the UK.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2019	
Baseline year emissions: April 2018 – March 2019	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	116
Scope 2	-
Scope 3 (4,5,6,7,9)	560
Total Emissions	676

Current Emissions Reporting

Reporting Year: 2022	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	0

Scope 2	0
Scope 3 (4,5,6,7,9)	306
Total Emissions	306

Emissions reduction targets

In order to continue our progress to achieving Net Zero the global parent company DXC Technology has adopted a carbon reduction target of 55% by FY25. GBC5 ES Info Sec UK Ltd contributes to this target and we project that carbon emissions will remain below 507 tCO₂e to FY25. This is a reduction of 25% compared with the baseline. Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

The following environmental management measures and projects have been completed or implemented since the 2018-19 baseline. The cumulative carbon emission reduction achieved by these schemes and additional minor changes to date equates to 370 tCO₂e, a 55% reduction against the 2018-19 baseline and the measures will be in effect when performing the contract:

Emissions reduction scheme	Annual tCO ₂ e saving	% reduction against baseline
Adopting a Virtual First approach: Reducing the property portfolio, encouraging flexible working for employees and cutting commuting emissions.	49	7%
Reduced business travel and use of fleet vehicles.	71	11%

Note that there are no locations associated with GBC5 ES Info Sec UK Ltd, which is fully operated by employees working remotely. This limits the scope of reductions activities. In the future we plan to implement further measures such as:

- Engagement with employees around energy use at home and travelling
- Engagement with key suppliers to address emissions within the value chain

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
